INTRODUCTION TO FIELD INSTRUCTION

A. History

In 1974, Belmont College, now Belmont University, embarked on an academic major in Social Work. The program began with one faculty member who engineered the major through the curriculum committee for the 1975-76 catalogue. In its infancy, the major was built around 30 hours of Social Work courses with 12 hours of specific prerequisites from the liberal arts core. The first major graduated with a Bachelor of Science (B.S.) degree in May, 1977.

February 1999 marked a new chapter in the Department of Social Work at Belmont University. The Council of Social Work Education granted full accreditation to the Department of Social Work, retroactive to 1996. Beginning in 1999 the University began granting the professional degree, the Bachelor of Social Work (BSW). Belmont University’s Department of Social Work has been continuously accredited since 1999. The Department of Social Work requirements now consist of 52 credit hours of social work courses in addition to the Bell Core general education requirements and additional prerequisites for the BSW degree.

The Department currently has four full-time faculty who advise social work majors, administrate the program, administrate the field practice sequence and instruct students in social work courses. The Department also utilizes qualified social workers in the community to assist as adjunct instructors in the classroom and also as supervisors for our seniors in field placement.

B. Educational Philosophy and Approach

Field education is the signature pedagogy in social work, the element of “instruction and socialization” (CSWE, 2015, p. 12) that teaches future social workers “to think, to perform, and to act ethically and with integrity” (CSWE, 2015, p. 12). The Department of Social Work at Belmont University designs field education to be a two (2) semester sequence of courses in which the student applies conceptual knowledge gained in a classroom to practice with clients in a social work agency. Supervision of the student is provided by practitioners with either a BSW or MSW. Students complete 250 clock hours of work each semester, for a total of 500 clock hours of field instruction. The educational competencies and policies of field instruction conform to the 2015 Educational Policy and Accreditation Standard (2015 EPAS) of CSWE. (To see the competencies in total, go to http://www.cswe.org/Accreditation/EPASRevision.aspx)

The educational philosophy underlying field instruction is a blend of classroom work and on-site experience that is characteristic of the profession. Within a framework of social work values and knowledge, the student in the field placement tests out theory and concepts; develops skills and demonstrates competency; learns to evaluate his/her performance; and lays the foundation for autonomous generalist social work practice and for contributing to the provision of equitable social services and professional knowledge.
C. Mission Statement

The mission of the Belmont University Department of Social Work is to prepare students as competent and effective generalist social work practitioners who are life-long learners, strategic thinkers, and leaders. Within the context of the liberal arts and modeled after the life and work of Jesus to seek social justice, our program focuses on providing students the requisite knowledge, values, and skills to serve and empower those who experience oppression or vulnerability with a vision of a more equitable and non-judgmental world.

D. Department Goals

The goals of the program are:

1. To prepare students for the beginning level of social work practice who;
   • demonstrate competence and effectiveness as generalist practitioners
   • are committed to life-long learning
   • think strategically
   • emerge as leaders
   • are influenced by a Christian, liberal arts learning environment
   • are guided by the knowledge, skills, values, and ethics of the social work profession

2. To produce graduates who seek to promote global social and economic justice.

E. Social Work Generalist Practice

As defined by the Council on Social Work Education (2015): “Generalist practice is grounded in the liberal arts and the person-in-environment framework. To promote human and social wellbeing, generalist practitioners use a range of prevention and intervention methods in their practice with diverse individuals, families, groups, organizations, and communities based on scientific inquiry and best practices. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice at the micro, mezzo, and macro levels. Generalist practitioners engage diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice.”

F. Description of Field Instruction

1. Field Instruction I

Field Instruction I (SWK 4410) is only available in the fall semester to social work majors who have completed their social work core and foundation courses, and have been admitted to field. Preparation for Field Instruction I is typically made during the spring semester of
the prior academic year in order that field placements may be arranged and students may begin their placement during the first full week of the fall semester. Each student is required to complete a total of 250 clock hours. Transfer students may only transfer field courses if those field courses are from an accredited social work program and meet the clock hour requirements. Selection of agencies is meant to provide assignments that will enable the student to meet the educational competencies of the Department of Social Work and Council on Social Work Education. Students are encouraged to collaborate with the Field Director to seek out placements that coincide with their career goals.

2. **Field Instruction II**

The social work student enters Field Instruction II (SWK 4420) in the spring semester along with Senior Capstone, SWK 4015. Field Instruction II, available only to Social Work majors who have successfully completed SWK 4410 and all other required social work courses, requires a minimum of 250 clock hours.

3. **Integrative Field Seminar**

An integrative seminar is conducted by the Belmont University Field Director with all students in field placement. The seminar is concurrent with Field I and with Field II. Emphasis is on: a. socialization to the professional role. b. development of a working philosophy combining commitment to service and to institutional system change, utilizing the values of the profession. c. application of the problem-solving model and generalist practice to the field setting. d. issues of student self-awareness. e. integration of classroom theory into field practice. Students' actual field experiences are utilized in an effort to help students integrate classroom concepts and theories, and to illuminate and deepen practice.

Each student will complete a journal of field activities and reflections on them using the format provided by the Field Director. This journal will be submitted to the Belmont University Field Director on a regular basis for additional feedback and to promote deeper learning.

G. **School Social Work**

While the Department of Social Work at Belmont University emphasizes the generalist approach there is an option available to the student that will meet licensure requirements of the State of Tennessee for School Social Work. In addition to meeting the requirements for the BSW, students who are seeking licensure for school social work must also take SWK 3150 (School Social Work), EDU 210 (Foundations of Education), EDU 2110 (Educational Psychology), and EDU 3800R (The Study of Exceptional Children). Additionally, either SWK 4410 or 4420 must be completed in a school certified by the State of Tennessee.

Upon completion of these requirements along with the BSW requirements, the student may submit his/her work to the State of Tennessee Department of Education for a license in School Social Work.
CRITERIA FOR SELECTION OF AGENCIES

Selection of an agency for field placement requires that the organization used for placement: 1) is recognized in the community as having a social service function, 2) is legally established and has adequate financial support, 3) carries on acceptable social work practice which is in concert with the ethics and philosophical base of social work, 4) is an Equal Opportunity Employer, and 5) that an adequate range and number of learning experiences are available to students in order that they may have the opportunity to demonstrate competence with individuals, families, groups, organizations, and communities.

The agency must approve the arrangements for the placement and the agency staff must be receptive to students and willing to cooperate with their program of instruction. When an agency staff member is to be a Field Instructor, it is hoped that the agency executive will be willing to limit the staff member’s responsibilities to allow sufficient time to hold regular conferences with each student, to be available in emergency situations, to have conferences with the Belmont Field Director and to prepare evaluations of the student's work.

The agency should provide suitable desks, telephones, supplies, computers, reimbursement for travel or other expenses in carrying out agency business, and privacy for interviewing and meeting with clients in a one-to-one relationship or with groups he/she may be leading/co-leading. It is the role of the Belmont Field Director to select agencies based on the above criteria as well as to monitor the agency for continuing compliance with the criteria. After initial placement plans have been made the agency will complete the Field Confirmation Agreement Form and return to Field Director.

CRITERIA FOR SELECTION OF FIELD INSTRUCTORS

Field instructors who are agency employees are selected jointly by the agency and the Belmont Department of University Social Work. In compliance with the 2015 EPAS, field instructors for a BSW student must have a master's or bachelor's degree in social work, and must have two years post social work degree experience in social work. Field instructors’ credentials should enable them to design learning opportunities from a social work perspective in order to help the student master the competencies. The Field Instructor will complete any forms required by the Council on Social Work Education (CSWE), the accrediting body. In consultation with the Director of Field Education, a field instructor may delegate specified areas of instruction to another staff member, a task coordinator. However, the field instructor is responsible for relating that instruction to the educational competencies of field instruction, for monitoring and evaluating the student's performance, and for maintaining regularly scheduled conferences with the student.
ROLES AND RESPONSIBILITIES IN FIELD INSTRUCTION

A. Field Director

The Field Director carries administrative, academic, and consultant responsibilities for the field curriculum. He/she oversees the contribution of field instruction to the competencies of the Social Work Department and carries responsibility for the effective and efficient coordination of field activities involving faculty, students, and agencies.

1. Administrative Responsibilities:
   • Select new field agencies.
   • Place students in agencies.
   • Evaluate and monitor field agencies.
   • Plan for, coordinate and manage a viable in-service workshop for agency Field Instructors prior to the beginning of each semester.
   • Maintain efficient reporting systems and records of field instruction activities.
   • Participate in the preparation and maintenance of a current field instruction manual.

2. Academic Responsibilities:
   • To initiate and respond to faculty, student, and agency suggestions for the continuous upgrading of the field instruction curriculum.
   • To conduct periodic evaluations of practicum methodology and outcomes, and initiate appropriate changes.
   • To apply a grade to the student’s work at the end of the semester.

3. Consultant Responsibilities:
   • To maintain ongoing contact with the Field Instructor through the semester, one face to face visit will be scheduled for the midpoint of the semester and additional meetings will be scheduled as needed.
   • Meet with the student in an integrated seminar throughout the year to discuss the placement, and to be available to the student as necessary.
   • Assist the Field Instructor in the designing of learning experiences for the student that relate to 2015 EPAS competencies; to assess with the Field Instructor the adequacy of the student's field performance; and to consult with and advise the Field Instructor regarding learning problems that students may have.
   • To facilitate the provision of appropriate student tasks and assignments.
   • Provide the Field Instructor with current knowledge about the academic curriculum and any necessary assistance in relating it to field supervision.
   • Ensure that student evaluations are made promptly in collaboration with the Field Instructor.
• Complete evaluations of placement.

B. Field Instructor and Task Coordinator

The Field Instructor has the primary responsibility for the student's education while in the field placement. This involves locating assignments within the agency that will enable the student to achieve satisfactory competence in meeting the standards identified by the standards of the CSWE that are embedded into the student’s learning contract.

It is hoped that the Field Instructor will also share knowledge and stimulate the student's application of theory to practice and practice to theory, provide ongoing feedback, engage in direct observation of student’s skills on a regular basis, help the student to become self-evaluative and complete an end of semester evaluation.

The term, "Task Coordinator" is used to indicate an agency staff member who assumes certain responsibilities for the student's field education as delegated and monitored by the Field Instructor. In general, the Task Coordinator should be well informed of the Department of Social Work's educational competencies, should understand his/her instruction contributes to the student's learning, and should be provided by the Field Instructor and/or the social work program with any necessary resources to accomplish the educational task. The Field Instructor will help the student to integrate the task coordinator’s contribution into the overall educational experience.

1. The Field Instructor Responsibilities:
   - Select the most appropriate agency assignments taking into consideration, as much as possible, the student's past experience, learning patterns, career expectations, and Student Learning Plan.
   - Provide orientation to the agency, promote the agency's understanding of the Belmont University Department of Social Work, acceptance of the student, and enable the student to feel a part of the agency.
   - Hold regular conferences with the student and utilize the competencies in the Student Learning Plan.
   - Evaluate progress continuously with the student and provide a written, formal evaluation once a semester to the Field Director prior to the deadline for grades.
   - Be competent to counsel the student and provide guidance/direction should the Field Instructor determine the student is not suited to continue in the present placement. In such a time as this, the agency Field Instructor will notify the Belmont University Field Director to arrange a meeting between the three parties to determine the next course of action on behalf the student and his/her continuing professional educational experience.
   - The actions possible are: placement in another agency; withdrawal from school and/or the program for one semester; voluntary withdrawal from the Belmont University Department of Social Work; dismissal from the Belmont...
University Department of Social Work in accordance with the policies for dismissal outlined in the program handbook.

- Contribute knowledge and suggestions to the Belmont University Department of Social Work for updating the field instruction program.
- Provide a written evaluation of the assistance, coordination and liaison cooperation of the Field Director while working with the Field Instructor and the student during the agency placement.

C. Student

The student is an adult learner demonstrating a commitment to the preparation for a career in the profession of social work. The expectations for the knowledge, values and skills that students must acquire in field practice are specified in the University's Department of Social Work's educational competencies.

1. The Student Responsibilities:

- To participate initially with the Field Instructor in examining the educational competencies for field instruction and in selecting tasks and assignments.
- To prepare for conferences with the Field Instructor by taking the initiative in raising questions for discussion and application of theoretical knowledge to practice.
- Participate actively in agency staff meetings.
- To engage actively in the evaluation process, seeking ongoing feedback from the Field Instructor and participating in the end-of-semester formal evaluation.
- Attend and participate in regular field seminars at the University.
- To bring to the Field Instructor any problems or dissatisfaction with the field experience and to engage constructively in finding solutions.
- To evaluate the field placement in order to provide the social work department with an additional means to consider the agency for future student placements.
- To meet requirements set by the agency in regards to dress code, background check, agency orientation, and any other professional expectations of the agency.
POLICIES AND PROCEDURES

A. Planning for Field Instruction

The student is expected to be involved in the planning for field instruction. During the spring semester of the year in which the student is enrolled in SWK 3700, Field Forum, the student is expected to:

1. Develop a resume appropriate for a beginning professional.
2. Complete Application for Field Instruction (See Appendix for Application for Field Instruction)

To further assist the student in planning for field instruction, students who are enrolled in Field Forum (SWK 3700) have an opportunity to speak with current field students and hear presentations about various field placements. Final field placement decisions for students will be made by the Field Director who must take into consideration the student’s goals as well as the agency’s ability to meet the standards of the 2015 EPAS.

As part of an application process, the Field Director will dialogue with students who self-report a personal or legal history that could be an impediment to successful field placement and other professional endeavors. This information will impact which agencies are pursued.

B. Field Instruction Grading Policy

Students will be evaluated by Field Instructors at the end of the semester on the progress relating to the Student Learning Plan and educational competencies. Evaluation is an ongoing process and one by which the student and Field Instructor monitor the student as a developing social work professional. The Student Learning Plan, Field Instructor meeting and the field curriculum and evaluation forms provide the specified educational competencies against which the student is evaluated. The Field Instructor is responsible for a formal written evaluation at the end of the semester. The Field Director is responsible for assigning the grade after consultation with the Field Instructor. Areas of consideration will include but are not limited to the student's use of field supervision, field seminar performance (including grades on course requirements as outlined by the syllabus), performance with agency staff and the social work professional community and the student's performance as a generalist social worker. Should the student disagree with the semester grade, there is a formal grade appeals process available which is described in the Field Instruction Syllabus.

Grades are determined on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>95-100 A</td>
<td>83-85 B-</td>
</tr>
<tr>
<td>92-94 A-</td>
<td>80-82 C+</td>
</tr>
<tr>
<td>89-91 B+</td>
<td>77-79 C</td>
</tr>
<tr>
<td>86-88 B</td>
<td>74-76 C-</td>
</tr>
<tr>
<td>71-73 D+</td>
<td>68-70 D</td>
</tr>
<tr>
<td>65-67 D-</td>
<td>64 and lower F</td>
</tr>
</tbody>
</table>
C. Appeals Process

If students believe they are being unjustly or inequitably treated within their placement, they may appeal to the Social Work Grievance Committee. The procedure for appeal to this committee is found in the Department of Social Work Student Handbook.

D. Student Professional Code of Conduct

1. **Departmental Expectations:** It is expected that students who are in Field Instruction adhere to the Student Professional Code of Conduct as noted below:

   **Cognitive, Affective and Behavioral Standards**
   Students demonstrate the ability to:

   - Abide by the policies and procedures of the Social Work Department and the field placement facilities with respect to attendance, ability to meet deadlines and communication with professors and field instructors
   - Adjust to changing situations and uncertainty in an academic and clinical environment
   - Calmly handle situations which may be physically, emotionally or intellectually stressful
   - Treat people of all cultures without prejudice throughout the lifespan
   - Accurately observe, gather and report verbal and written data in a timely manner
   - Demonstrate computer literacy at a level sufficient for word processing and treatment documentation
   - Demonstrate the ability to relate to persons with problems in a nonjudgmental way and with warmth and genuineness
   - Demonstrate good interpersonal skills needed for productive classroom discussion, respectful interaction with classmates, faculty, staff, and development of appropriate client/worker relationships
   - Display values of caring, empathy, and responsiveness to the needs of clients
   - Demonstrate professional behavior in all areas including classroom behavior, professional presentations and field interactions
   - Accurately self-assess performance and strengths and weaknesses, and demonstrate self-awareness and growth necessary for professional social work practice
Communication Standards
Students demonstrate the ability to:

- Establish professional, empathic relationships with individuals from a variety of backgrounds and ages, based on trust
- Express own ideas and feelings clearly and respectfully and in a manner conducive to a positive outcome
- Listen actively in order to receive and interpret oral communication
- Consult and collaborate with peers, faculty, social work practitioners and other members of the community
- Comprehend and effectively communicate in the English language orally and in writing using appropriate grammar and vocabulary
- Communicate clearly and audibly during interactions with classmates, faculty, clients and field instructors
- Communicate effectively as part of an interdisciplinary team
- Listen to constructive feedback and implement subsequent changes

2. Agency Expectations: The student in field instruction has the same professional responsibilities as an employed staff member and is expected to follow agency policies and abide by rules and regulations of the agency. This includes, but is not limited to, the following:

- Protecting the confidentiality of all information about clients.
- Being available for client emergencies if at all possible, even though these occur after regular hours.
- Notifying the Field Instructor/agency of unavoidable absences or lateness, in advance, if possible.
- Make up time for absences and lateness.
- Follow the dress code of the agency.

E. Attendance Policy

As a general rule, students spend only the required number of hours per week in field instruction and reserve the other time for classroom courses and study. Classroom work should not be done during field instruction and ordinarily students should not be asked to fulfill field obligations during class time. A student who works overtime in field instruction for client emergencies or special projects may arrange with the field instructor to take time off for necessary academic work.

Students are usually entitled to holidays listed on the University calendar which fall on field instruction days if they make the Field Instructor aware of these at the beginning of the semester. This also applies to holidays observed by the agency as well as agency closure due to hazardous weather conditions. However, the student is still required to complete satisfactorily the required 250 clock hours for his/her particular field instruction before the end of the semester.
F. Guidelines for Supervision and Evaluating Student Performance

Field Supervision:

Field supervision is the primary means through which a collaborative relationship is developed between the student and the Field Instructor, and also the means through which expectations are clarified and performance evaluated. This is a time to reflect on the activities of the past 16 weeks – not just to report what was accomplished, but also to discuss learning points, share successes and struggles, and identify any specific needs the student may have. This regular supervisory meeting is different from the informal contacts that the student may have with the Field Instructor and other agency staff. It is a planned, scheduled time that is set aside to discuss the student’s social work practice. Belmont’s Social Work Department expects that the student(s) and Field Instructor will meet weekly for approximately 60 minutes. Supervision meetings can occur via video conferencing if the distance between the Field Instructor and student make in-person supervision difficult to manage regularly. The Field Instructor is responsible to ensure that the modality of video conferencing used (Zoom, Skype, etc.) meets the agency’s requirements for confidentiality, since client information may be discussed during the supervision period. When multiple students are placed in an agency, group supervision may be used in addition to individual supervision. However, group supervision cannot replace the use of regular individual supervisory meetings and should be used a maximum of every other week.

Here are some suggestions to help make the field instruction time most effective:

1. Meet weekly, throughout the year, at a regularly scheduled time with few or no interruptions;
2. For each meeting, the student should be encouraged to prepare an agenda of important experiences he/she wants to discuss;
3. Use this time to focus on the student’s practice (questions, experiences, and concerns about practice), rather than as a time to schedule tasks;
4. Regular reviews of the student’s Learning Plan can help to track progress, revise assignments when needed, and preserve a focus on student learning.
5. The student and Field Instructor should work to develop an open, honest and professional relationship. Part of this relationship will include determining the most effective way to give each other feedback.
6. Students are encouraged to use mistakes as an opportunity to learn. Field Instructors can assist the student to explore concrete steps for improving professional skills.
7. The student and Field Instructor should discuss the strategies that are most helpful in facilitating the student’s learning. Developing and trying new learning strategies is encouraged.
8. The student will use the NASW Code of Ethics to guide to his/her professional learning and within the agency and within the community.
9. The student should discuss what she/he is learning in classes with the Field Instructor. Students should discuss classroom assignments with the Field
Instructor for suggestions and guidance, especially when class assignments are based on experiences occurring within field practicum.

**Providing Feedback to Students:**

It is extremely important to monitor and evaluate student progress throughout the practicum. In addition to the feedback the Field Instructor provides on a regular basis through supervision meetings, some additional mechanisms have been established to more formally evaluate student progress on an ongoing basis. These include:

1. Initial Learning Plan (developed at the beginning of the student’s practicum)
2. Site visits (conducted by the Field Director once per semester)
3. Mid-year evaluation (due near the completion of the Fall Semester)
4. Spring semester Learning Plan revision
5. End of the year evaluation. It is important that along with the numerical ratings that the Field Instructor provide written feedback to the student. The final evaluation becomes the official record of the student’s completion of this degree requirement and is retained by the School.

The above feedback mechanisms are required by the School, and are expected to be completed with the input and review of the student and the Field Instructor.

**G. Disruptions**

It is expected that the student will remain in the same practicum for two semesters, unless completing an away/abroad placement in the spring semester. A change in practicum may be considered under the following circumstances:

1. Unanticipated changes within the field agency that makes it impossible for the agency to continue to support the educational needs of the student, such as budget cuts, staff changes, and loss of clients. In these instances the Field Instructor needs to inform the Field Director immediately. Arrangements will be made for the student to be placed in a different practicum. When the change in practicum is due to changes in the practicum agency, the student will be given credit for the hours they have accrued.

2. If a significant mismatch has occurred between the student and the field agency or Field Instructor that was not apparent during the placement interview, a change in placement may be considered. In order for a change to be considered:

   - The student and Field Instructor should first discuss any difficulties with one another, and then invite the Field Director to meet with them if the problem cannot be resolved.
• If the Field Director agrees that there are irreconcilable differences for either the student or the agency, then the Field Director will complete a Practicum Disruption Form.

• Depending on the circumstances, a student may be placed as soon as possible in a new agency, or the student may be required to delay practicum until an agency is available that meets his/her educational needs.

• Credit for hours accrued prior to the disruption will be determined by the Field Director and Social Work Department Chair, based on all of the factors in the particular situation.

3. In situations where a student commits an act, or series of actions that result in the disruption of the practicum, the student may lose all credit for the practicum and may not be replaced in another practicum. This is determined on a case-by-case basis through a student performance review process.

H. Nondiscrimination

The Department of Social Work at Belmont University operates every aspect of the department and its policies without discrimination on the basis of race, color, religion, creed, gender, ethnic or national origin, disability, age, political orientation, or sexual orientation.

I. Students with Accommodations

1. Once a student has identified that he/she has a disability and will need accommodations, the student will be referred to the Office of the Dean of Students, located in the Beaman Student Life Center, Suite 200, 615-460-6407 to work with a specialist on the specific accommodations needed.

2. After receiving confirmation that the student has identified accommodations with the Office of the Dean of Students, the student should provide the Field Director with information regarding the accommodations the student anticipates for practicum.

3. The Field Director will work with the student to find a practicum agency that is of interest. However, some accommodations may limit the agency options available to a student.

4. Unless the Field Director is already aware of whether or not the agency would be able to accommodate the student, she will contact the agency and relay the language that has been provided by the student or Dean of Students Office regarding accommodations, to assess with the agency if they can accommodate the student.

5. Once the Field Director and the student have identified an agency that is ready to interview the student, the student will be responsible for working with office to provide accommodation language that is specific to the agency and will discuss with the agency during the interview process.
6. An accommodations letter, drafted by the Dean of Students Office must be provided by the student to the field agency and the Field Director before beginning practicum.

J. Life Experience Credit

Academic credit for life experience and previous work experience will not be given, in whole or part, in lieu of the field practicum or of courses in the social work curriculum.

K. Policy for Employment at the Field Site

Students may be placed in an agency in which they are employed provided the following criteria is met:

1. The assignments of the student and the employee differ.
2. If at all possible, the supervisor of the employee and the supervisor of the student differ.
3. At all times, the student is seen as a learner and will be evaluated accordingly.

L. Policy for Safety in Field Placement

Field Instructors play a significant role in helping students to become familiar with the agency’s safety procedures. It is not unusual for students to have concerns about personal safety. However, many students find it difficult to discuss these directly with the Field Instructor, especially at the beginning of their experience in the agency. The 2013 NASW Guidelines for Social Work Safety in the Workplace (available at https://www.socialworkers.org/practice/naswstandards/safetystandards2013.pdf) included this standard to guide field instructors:

“Standard 11. Student Safety Social workers need to be prepared for safe social work practice during their student years. Interpretation: As practicum experiences are an important part of the social work curriculum, schools of social work are responsible for ensuring that social work students are educated about concepts and techniques related to safety as well as supervised in safe environments. Social work safety should be part of the curriculum/training of field practicum instructors. Schools should place students in settings with sound safety policies and procedures that should be reviewed with students in school and in the placement setting. Professional safety should be part of the school and agency orientations. Students who have safety concerns about their placements must be provided with supports until the safety concerns have abated. If the concerns cannot be adequately addressed, the student must be offered an alternative placement.”

While it isn’t possible for the Field Education Office to create guidelines that cover every safety issue that could potentially develop while a student is in the field, we have created this set of guidelines in order to communicate the general expectations for the Field Instructor, agency, and student when it comes to safety.
1. **Guidelines for the agency/Field Instructor**

   - If not already available, prepare an accessible safety/risk management orientation prior to the student arriving at practicum.
   - Orient students to safety/risk management policies and procedures within the first two weeks of practicum placement.
     - Orientation should include:
       - Security of belongings
       - Safety issues with clients specific to client population and service setting
       - Safety within the agency building and in the office
       - Safety during home visits or other travel outside of the office
       - Health precautions and protocols
   - Review all safety/risk management policies and procedures with the student(s) at least once per semester, or more often if needed.
   - Discuss assessing and handling risk in the field should be incorporated into supervision meetings.
   - Students should not be required to complete assignments that make them feel physically unsafe.
   - Students should not be required to start unaccompanied home visits without appropriate training and shadowing of an experienced worker. The student and Field Instructor should have a plan in place for home visits that assures the Field Instructor is aware of the details of the visit, and the Field Instructor should have the student’s cell phone number.
   - Students should not be left to staff an office or see clients without other staff present in the building.
   - Report critical incidents immediately, in accordance with the Critical Incident policy.
   - Please see Appendix A for more helpful information about developing a safety plan with your student.

2. **Guidelines for students**

   - Become familiar with the safety policies and procedures of the agency.
   - Become familiar with the area in which the student is placed, including parking availability.
   - Be able to explain knowledge of the safety/risk management policies and procedures to the liaison during the site visit.
   - If a student has been asked to do something that makes them feel at risk physically, the student should contact their Field Instructor or Field Director immediately.
Report critical incidents immediately, in accordance with the Critical Incident policy.

M. Transportation Policies

Students are responsible for providing their own transportation to and from their field placement. The specifics of this (regarding location(s) of field work) should be discussed with the Field Instructor before starting the placement to insure feasibility for students. If students are expected to drive to sites that are beyond their comfort or ability to fund, there should be effort to carpool with a colleague or make other arrangements.

Students are not to assume responsibility for transporting clients in their personal car. Students may ride with an agency employee in a vehicle if transporting clients is part of service delivery. These activities must be noted on the Student’s Learning Plan.

N. Critical Incidents

For purposes of this policy, “critical incident” is defined as:

- Injury to the student and/or client under the immediate care/supervision of the student
- Threat of violence to a student by a client or agency staff
- Abusive behavior by the student towards a client or agency staff
- Law violation by the student
- Any event that could have a profound impact on the student

In the event of a critical incident:

1. The student should:
   - Obtain medical attention, if needed
   - Immediately notify his/her Field Instructor of the incident
   - Establish with the Field Instructor if further action (law enforcement involvement, etc.) is needed
   - Contact the Field Liaison and/or the Director of Field Education within 24 hours of the incident and report:
     - What happened
     - Who was involved
     - Where/when it happened

2. The Field Instructor should:
   - Contact with Field Liaison and/or the Director of Field Education within 24 hours of the incident to report what happened, including how the agency is handling the incident.

3. The Director of Field Education should:
• Make contact with the student to ensure that resources and appropriate referrals are made.
• Plan with the student to ensure his/her physical and emotional safety are addressed at the field practicum placement.
• Plan with the agency regarding how to reduce the risk for critical incidents involving students in the future.

O. Sexual Harassment

As stated in the Belmont University’s Bruin Guide: *Belmont is a Christian community of learning and service. Our community is committed to the dignity and worth of every individual, which is embodied in our Community Commitment to Individual Worth. Sexual misconduct is the antithesis of this Community Commitment. Because of our faith commitment, community values and obligations of federal law under Title IX of the Education Amendments of 1972, members of the Belmont community, guests, and visitors have the right to be free from sexual misconduct and from retaliation for reporting incidents of sexual misconduct. Accordingly, the community rejects and responds assertively to sexual misconduct violations. When violations are found, Belmont will take action calculated to stop the behavior, ameliorate its effects, and/or prevent the behavior from reoccurring. Such action is likely to include, but is not limited to, suspension, expulsion, or dismissal of the person who violated this policy.*

The University’s Victim’s Advocate is a primary source serving as a confidential advisor to provide support, assistance, and knowledge of resources, rights, and referrals to victims of crimes such as sexual assault, domestic or dating violence, harassment, and stalking. The Victim’s Advocate may be reached at 615-584-9011 (mobile). Belmont’s Victim’s Advocate is: Marlene Hall Assistant Chief of Programming, Advocacy and Outreach Office of Campus Security Belmont University 615.460.5661 marlene.hall@belmont.edu

Additionally, individuals may seek confidential, professional assistance in the form of counseling, advocacy and/or support related to their experience or a friend’s experience of sexual misconduct via the following Belmont services: • Counseling Services at 615.460.6856 • Health Services at 615.460.5506 • University Ministries Pastoral Care at 615.460.6419

P. Honorarium

At the conclusion of the students' field placement the Field Instructors will be paid a small honorarium for providing the student's supervision (when not in violation of agency policy).
FIELD PLACEMENT CONTRACT
BELMONT UNIVERSITY
DEPARTMENT OF SOCIAL WORK

This placement of a student Social Work major by the Belmont University Department of Social Work in an agency brings a number of reciprocal responsibilities into action. In a contract sense, this agreement denotes that all parties (university, agency, and the student) will perform specified components of the total field work process. This cooperative effort is delineated as follows:

A. **BELMONT UNIVERSITY**

1. Assumes initial responsibility for the selection of field placement agencies and students to be placed in an agency, with student's educational needs and goals as the primary consideration in this decision.

2. Remains cognizant that the agency has the final decision regarding student placement.

3. Provides academic information and other pertinent information concerning the student, as requested, with the permission of the student.

4. Provides the agency with evaluation instruments to be used as criteria for assessment of student's work. Incorporated within this requirement is the role of providing the agency and Field Instructor with the educational goals of the Department of Social Work.

5. Assumes final responsibility for the administration of the field placement program; including decisions which affect the progress of the student, such as grades, credits, and minimum number of field work hour requirements, with final grading including consideration of agency and Field Instructor recommendation.

6. Provides insurance liability for the student while fulfilling requirements of the agency during his/her assigned field placement.

B. **THE AGENCY**

1. Provides Belmont University Department of Social Work with a description of the placement and social work tasks involved, so as to further enhance the educational objectives and professional interests of the student.

2. Works in close coordination with the Department of Social Work in planning the student's educational experience. This includes designating a BSW or MSW to serve as Field Instructor on a continual basis during the student's placement.
3. Provides students with opportunity to become involved in the total agency operation as is appropriate, and refrain from assigning student "busy work" which is not a part of or related to the social work field experience.

4. Encourages contact between the student and the total agency staff to broaden the student's knowledge base to include administration, planning, community interest, research, and other social work methods or interventions which are unique to the agency.

5. Complies with deadlines for the preparation of reports and evaluations needed in evaluating the student's field work performance, utilizing the 2015 EPAS.

6. Permits students the use of agency facilities during the field placement, including adequate space, access to a telephone, access to clerical materials, etc. This should be as appropriate to the student's defined role and tasks and as permitted by the agency's operational standards.

7. Allows students to evaluate their own practice in order to assess their effective use of social work intervention methods.

8. Provides a diversity of social work experiences that include work with individuals, families, groups, communities, and organization utilizing the generalist perspective.

C. **THE STUDENT**

1. Provides a resume for the placement agency.

2. Accept the responsibilities and rules consistent with the field agency and appropriate to social work practice.

3. Provides his or her transportation to and from the agency.

4. Keeps a journal throughout the field placement to integrate experiential learning with social work competencies. This journal should follow the format provided by the Field Director.

5. Will be punctual and responsible in his or her dealing with the field placement, notifying the Field Instructor of illness or tardiness as is necessary.

6. Participates in his or her performance and field evaluation in the manner requested by both Field Instructor and Social Work Field Director.

7. Conducts self in a professional manner and in a manner reflecting the Christian orientation of the university.

8. Dresses in a professional manner in accordance to agency policy.
9. Provides the agency with any information required by that agency of interns, such as background checks, immunization records, CPR certification.

D. TERMINATION GUIDELINES

Because this is a contractual agreement, contingent termination must be anticipated. A field placement may be terminated by any of the participating parties as follows:

1. Written notification and reason for termination must be submitted to all concerned parties.

2. A mutual decision of termination must be achieved by the interaction of all parties; student, Social Work Field Director, and agency representative. The decision and reason for termination will be noted in the student's record.

These guidelines and agreements are intended to facilitate interaction and cooperation and to avoid unnecessary conflict due to misunderstanding of mutual expectations and responsibilities. Therefore, we the undersigned agree to the above guidelines to the best of our abilities.

Benchmarks:
Fall Semester
Students should demonstrate skills at Level 2 or above. Please contact Field Director if student is at Level 1 in any objective.

Spring Semester
Students should demonstrate skills at Level 3 or 4. Please contact Field Director if Student is below Level 2 in any objective.

Narrative Sections:
Please comment on areas that need work, as well as on strengths. It is essential for both the Student and the Field Director to have this section completed. Comments are required when using 1, yet are encouraged on all.

Agency and Field Instructor Evaluation Form

| Student: | ______________________ | Agency: | ______________________ |
| Field Instructor: | ______________________ | Semester/year | ______________________ |

Please take a few minutes to complete this field evaluation instrument. The purpose of this evaluation is to provide feedback to your faculty and administration concerning the nature and quality of field placements. We hope such feedback will aid in the process of continuously improving the quality of our program.

*If you score any item at a 2 or lower, please leave a comment explaining your answer so that we can better understand your experience in the field.*

**Comment:**

### Please answer the following questions:

1. Please comment about the quality of the field supervision you received from the agency-based field instructor. *Please address how frequently this occurred in your answer.*

2. Please comment about the quality of the agency environment as a field placement for BSW students:

3. Please comment about the quality of the placement process (placement procedures, pre-placement interviews, communication with field professor, orientation, etc.)
DESCRIPTION OF SOCIAL WORK COURSES FROM UNIVERSITY CATALOG

SWK 1990-4990. Independent Studies (1-3). Approved independent studies on a special topic with a professor.

SWK 1895-4895. Special Topics (1-3). Unique special topics offered for one semester or a pilot course.

SWK 2000. Introduction to Social Work (3, Spring and Fall). A study of the origins, structure, and characteristics of social work services, social welfare policies, and the social work profession. In addition to other course requirements, the student must complete 15 clock hours of service learning in a social service agency.

SWK 2050. Social Work Research (4, Fall). Pre/co-requisites: SWK 2000, MTH 1150. This is an introduction to the methods of scientific inquiry and their relevance to social work. Topics include research design, problem formulation, measurement, data analysis, and ethics in research. Fundamentals of analyzing research reports will also be emphasized. * a 1-hour, web-based lab is included to expand knowledge of APA formatting, Evidence-based practice, and statistical applications.

SWK 2150. Social Work Treatment of Substance Use Disorders (3). A generalist social work approach dealing with the history of drug usage/origin, drug usage as a social problem, and a systems approach involving the individual, family/support group and society in dealing with the problem.

SWK 2200. Child Welfare (3). A general study of social work service designed to enhance the welfare of children. Emphasis is on societal problems which cause problems for children and on the activities and programs which provide services to deal with those problems.

SWK 2250. Human Behavior and Social Environment I (3, Spring and Fall). This course examines the biological, psychological, and social development of the individual at different lifespan stages. Students learn about human behavior from the perspective of developmental milestones as well as environmental, societal and cultural issues and contexts.

SWK 2300. Exploring Human Diversity (3). This course examines and explores the intricacies of human diversity. Students will be able to identify areas of oppression and injustice as well as strength and opportunity as they learn about what makes us alike and different. There is an emphasis on critical thinking about, and awareness of, human diversity through readings, films, personal visits and immersion experiences in the community representing a vast scope of diversity including (but not limited to): age, class, ethnicity, ability, faith, and gender.
Appendix 1

**SWK 2350. Poverty in the United States (3).** Working with persons experiencing poverty is a major focus of the social work profession. The primary purpose of this course is to examine the nature of poverty, both rural and urban, in the United States. To achieve this purpose, we will explore and examine the history of poverty in the United States, theories about the causes of poverty, the role of class, social mobility, and the effects of poverty on individual development. We will also examine the demographics of poverty and reflect on the co-occurrence of poverty and oppression. We will also assess various policies and programs that have been designed to alleviate poverty, the effects and consequences of these efforts, and will explore and propose other possible intervention strategies.

**SWK 2400. Social Work Practice in Health Care (3).** This course is designed to provide students with a general understanding of the role of social workers in health settings and with the knowledge to work with individuals and families in a variety of health settings. The course will examine the psychosocial and biological causes of health, illness, and disability from infancy to older adulthood. Students will learn about existing health care issues, ethical concerns, disparities in level of and access to health care, and the range of professional opportunities for social work involvement.

**SWK 2450. Trauma Informed Social Work Practice (3).** This course will present the current conceptualizations of trauma-informed care from an ecological point of view. Emphasis is placed on the biology and neuroscience of stress and trauma, the effects of trauma on populations at-risk and the evolving conceptualization of social work's role in the treatment and prevention of stress and trauma. Acquisition of diagnostic skills will be emphasized throughout the course as well as the knowledgeable applications of "trauma-informed care" to all levels of generalist practice. Evidence-based interventions and treatment solutions will be presented to students, but not expected to be practiced.

**SWK 2950-4950. Studies Abroad (3-18).** Study in a foreign country. Individual course titles and locations are assigned for each course taken. See Studies Abroad program for details.

**SWK 3100. Social Work with the Aging (3).** Basic concepts of generalist social work practice will be applied to the older adult group. The characteristics of aging populations, their needs, and potential will be discussed. Social trends and institutions involved in services to the aged will be included.

**SWK 3150. School Social Work (3, even years, Fall).** A study of current school issues and problems, with emphasis on ways educators, social workers, school psychologists, guidance counselors, students and their families might work toward strengths-based solutions to and prevention of problems within a school culture.

**SWK 3210. Social Work Practice I (3, Fall).** Prerequisite: SWK 2000. Open to Social Work Majors only. An examination of the knowledge, values, and skills basic to the generalist practice of social work. Students utilize an understanding of the social work
process to develop skills in problem-solving with individuals, and families. A videotape experience is provided for skill-building and evaluation opportunities.

**SWK 3220. Social Work Practice II (3, Spring).** *Prerequisite: SWK 3210.* A continuation of SWK 3210, including further application of the generalist method of problem-solving with micro and macro systems. The course is focused in group-work of various kinds. Students will learn about group facilitation and have the opportunity to practice skills throughout the course.

**SWK 3230. Social Work Practice III (3, Fall).** *Prerequisite: SWK 3210 and 3220.* This course is an examination of the knowledge, values, and skills basic to the generalist practice of social work within groups, organizations and communities. Students build upon the principles of practice from a person-in-environment perspective and apply to macro-level systems. A continuation of SWK 3210 and SWK 3220, this is the concluding course in the three part Social Work practice sequence. Content includes a further application of the generalist model of problem solving within macro systems, with a focus on community development, organizational management, leadership, and grant writing.

**SWK 3350. Mindfulness and Spirituality in Helping Professions (3).** An exploration into the study of spiritual formation for the individual in helping professions. Students will examine the importance of acknowledging the spiritual dimension with clients, and others whom they service, and will gain knowledge and skills in the implementation of spiritual and mindfulness practices.

**SWK 3700. Social Work Field Forum (3, Spring).** *Prerequisite: Consent of instructor.* A forum for junior Social Work majors preparing them for entrance into their field instruction. The course covers, but is not limited to, agency selection, mission statement, client population, student role in an agency setting, professionalism, Social Work values and ethics, and responsibility. Course is graded on a Pass/Fail basis only.

**SWK 3810. Social Welfare Policy Issues and Services I (3, Fall).** *Prerequisite: SWK 2000.* An examination of the institution of social welfare with emphasis on the history and systemic nature of service programs. Students examine economic and political processes that impact on the social welfare system especially as they relate to oppressed populations. Students will also be introduced to social policy analysis.

**SWK 3820. Social Welfare Policy Issues and Services II (3, Spring).** *Prerequisite: SWK 3810.* An examination of the experiences, needs, and responses of people who have been subjected to institutionalized forms of oppression. Attention is given to the patterns and consequences of discrimination and oppression as they relate to the economic, political, and social welfare systems. Populations include, but are not limited to, those distinguished by age, disablement, sexual orientation, and culture. Students will present their policy analyses at the Belmont Undergraduate Research Symposium. Gen. Ed. Designation: EL (R – Undergraduate Research).
Appendix 1

**SWK 4230. Crisis Intervention (3, Fall).** *Prerequisite: SWK 3700. Open to senior-level social work majors only.* A study of short-term, limited-goal generalist techniques and management skills employed by social workers dealing with crisis situations. Self care will be emphasized in this course as the students examine difficult issues.

**SWK 4410. Field Instruction I (6, Fall).** *Prerequisite: SWK 3700 or consent of instructor.* Two hundred and fifty clock hours of field instruction, supervised by a professional social worker in a social service agency, provide the student an opportunity to implement knowledge learned in foundation courses. Emphasis is on developing generalist social work practice skills. Concurrent with a 1 1/2 hour weekly seminar. Gen. Ed. Designation: EL (I – Internships, Clinicals, Practica).

**SWK 4420. Field Instruction II - Cultural Responsiveness (6, Spring).** *Prerequisite: SWK 4410 or consent of instructor.* 250 clock hours of field instruction supervised by a professional social worker in a social work setting. This course helps to strengthen the development of the generalist social work and the use of self. A deeper consideration of values and social issues is emphasized. Concurrent with a 1 1/2 hour weekly seminar. Gen. Ed. Designation: EL (I – Internships, Clinicals, Practica).

**SWK 4015. Senior Seminar (3, Spring).** *Co-requisite: SWK 4420.* This is the culminating experience capstone course for graduating seniors to demonstrate mastery of the professional social work foundation, and prepare them to systematically evaluate their own practice through a major integrative assignment.
BELMONT UNIVERSITY DEPARTMENT OF SOCIAL WORK
APPLICATION FOR FIELD INSTRUCTION I and II
SWK 4410, 4420

Name _________________________________ Date __________________
Address _________________________________ Belmont email_________________
Telephone number ___________________ Date of Birth __________________

School Social Work Certification? Yes ______ No ______

# Convo hours Completed by date of application__________

Areas of Placement Preference: (Mental Health, School, etc.):

Agency of Interest: Name the agency and note what about it interests you (population they serve, macro placement, networking, type of agency, etc.)

Things I should know about your circumstances next year: (ie: transportation limitation, sports team schedule, agency settings that might be triggering, interest in International placement, etc.)

Background Check: Are there any circumstances in your history (personal or legal) that cause you to be concerned about attaining a field placement or being credentialed following graduation? yes____ no____

I, by my signature, understand this application must be submitted to the Field Director no later than February 14, 2020. I further understand the Field Director exercises the final responsibility in identifying acceptable learning experiences for field placements. Placements will be determined on the basis of application submitted, supervision provided by a social worker, individual interviews and available agencies.

Signature of Applicant                                                   Date

I have reviewed this application and find the applicant ready to begin Field Instruction.
Developing a Safety Plan

Work related violence against social workers is a fact of life. It is pervasive and must be addressed by every school of social work, agency and individual worker. Violence includes physical assault, verbal assault, harassment and the threat of assault. Many occurrences of violence can be anticipated and their impact lessened; some may be prevented entirely. If agencies have well conceived safety policies and procedures in place, client and worker safety will be maximized and the agency's liability will be minimized.

Listed below is an outline of requirements for developing a comprehensive policy and safety plan. This outline is general. Each agency or private practice must develop specific guidelines that address their unique characteristics. [drawn from NASW's Guidelines for Social Work Safety in the Workplace: https://www.socialworkers.org/LinkClick.aspx?fileticket=6OEdoMjcNC0%3d&portalid=0]

I. Safety Plan of Action

A written safety plan specific to the function and layout of each agency, or branch or division of an organization must be developed. Both staff input and expert consultation are important in the planning. Each safety plan must be detailed and comprehensive so that all staff members, clinical and non-clinical, know what to do in case of emergency. The plan must be reviewed and practiced on a regular basis if it is to be useful.

A comprehensive safety plan should include:

- How to recognize signs of agitation.
- What to do at first signs of agitation.
- Code words and phrases to signal for help without increasing the client's agitation
- Format for ongoing assessment of a client's level of dangerousness.
- Format for intervention including:
  - When and how to attempt de-escalation.
  - When and how to use non-violent self-defense, physical evasion, force deflection and disengagement skills.
  - When and how to call security or police.
  - When and how to evacuate building.

II. Exterior and Physical Layout

- Maintain and furnish the facility so that it presents an organized, calm and respectful appearance to clients. Pay particular attention to the waiting area.
• Ensure adequate lighting inside and out.
• Be aware of traffic patterns with special attention to where clients can go unescorted. If the location of bathrooms and coffee area allows unescorted clients to walk through the building, be aware of the risks.
• Establish a risk room where potentially violent or agitated clients can be seen. This room should be furnished in a sparse, neutral manner, and located in a centrally located area with ready access to help.
• Evaluate the need for safety equipment including buzzers and alarms in offices.
• Furnish offices to allow a comfortable distance between client and worker and to permit easy exit for both. Eliminate items that may be thrown or used as weapons.
• Routinely inspect exterior and interior layout and all safety equipment to ensure all is in working order.

III. Rules, Regulations and Procedures

• Establish a format for taking a required history of violence as a part of regular intake procedure.
• Establish a format for communicating violent history to staff when current danger exists.
• Ensure adequate staffing at all times; no one should work in a building alone.
• Communicate safety policies to clients, when indicated.
• Orient new students to safety policy and plan.
• Formulate and post a policy re: providing services to clients who carry or have guns and weapons.
• Formulate and post a policy re: providing services to clients who are under the influence of alcohol or drugs.
• Provide ongoing supervision, consultation and training in:
  o Details of the safety policy and plan with regular updates.
  o Assessment of the client's potential to become violent.
  o Treatment and clinical interventions with violent clients.
  o De-escalation techniques.
  o Non-violent self-defense, physical evasion, force deflection and disengagement skills.
  o Tarasoff decision - the duty to warn and protect.
  o Aftermath of client violence.
  o Address institutional practices that unintentionally contribute to client violence.

• Develop a policy on home visits which include:
  o Leaving itinerary with office staff so worker location is known at all times.
  o Phoning the office frequently when in the field.
  o Providing portable phones and other safety equipment.
  o Providing options for escorts: staff or police.
- Giving permission not to go when risk of violence is high.

- Establish relationships with security and police. Let them know what you do and what you need from them.

- Design a program to address the aftermath of client violence. Address the physical and emotional needs, short and long term, of the assaulted worker, worker's family, coworkers and affected clients as well as a format for debriefing and communicating with all staff following an occurrence of violence.

- Develop a format to address the consequences of violent behavior with the client. Include the effect of the violence on services. Develop a format to determine when and how legal action against the violent client will be taken.

- Log and communicate to staff all work-related occurrences of violence including threats.

- Re-evaluate policies, procedures and training needs following an occurrence of violence.

- Develop a "Risk Assessment" tool and train all staff to use it.

**BELMONT SOCIAL WORK DEPARTMENT EXPECTS THAT THE FIELD INSTRUCTOR AND STUDENT WILL REVIEW THE AGENCY SAFETY PLAN AS PART OF THE ORIENTATION PROCESS.**
