

## BROKEN WINDOWS

You wanna be tough Cos that's just what you do  
When life gets a rough You know you gotta come through  
Then somebody throws a rock  
Somebody cracks the glass  
That's when you give it all you got  
Cos you know you're stronger than that...

### Chorus

Broken windows and broken hearts  
Shattered pieces and jagged scars  
With a little time and a little love  
Put em back together and make a new start  
Like a crazy, aching breaking work of art  
Broken Windows and broken hearts

### Verse

You been here before  
This pain aint nothin' new  
Those tears on the floor  
They become the glue

Then somebody throws a rock  
Somebody cracks the glass  
That's when you give it one more shot  
Cos you know you're stronger than that...
