

## I AM LOVE

Warm river water greets the morning light That summer sun no longer burn my eyes Now I  
see through The lies behind the truth At night I try to find The warmth you left behind...

### Chorus

A heart to break to open

A soul to redeem

Promises, hoping

memories, dreams

Heavy as the sword, light as the dove I am love...

### Verse

There's a brand new me inside to embrace I got scars I never want to retrace I've been  
strong And I've been holdin' on Lyin in the dark I've held myself from the start...
